Please enjoy our family-style service where dishes are brought to the table as they are prepared. Meant to be shared, they are accompanied by side plates.

Your pizza is being made in our amazing new earth oven.

People have made earthen ovens for millennia. Some are just a hole in the ground, like Hawaiian ovens. Others are raised up. Archeologists in Turkey uncovered one that was 4,000 years old! Most traditional ovens were (and are) communal, so many people could cook in the long-lasting heat.

GTF is now baking bread every morning. We offer a levain (a European style sourdough), a sourdough baguette and a three seed hearth bread.
