

Week 8 – Summer CSA

July 25 – July 31, 2022

Hi everyone,

Like everyone else in Oregon, we are getting ourselves through the heat. Harvests are big, yet weeding, trellising, and irrigating continue, and we are still continually prepping and planting more ground. Thanks for your positive thoughts from afar. We are truly so excited to start sharing with you our prime summer fruiting crops. They've been a long time in the making here...

Stay cool this week,

Eric
